We are delighted to have reached the shortlist of the Accountancy Age Awards 2008 in the category '[Best Use of the Internet - Business](#)'. This is a very significant achievement and is great cause for celebration at Isosceles. These highly sought after awards are a benchmark against which success in the accountancy business is judged.

"The clever way that Isosceles use technology makes them feel like a part of my company. And to have all that talent available to us online - we couldn't work without them." CEO, Pacific Retail Systems

At the core of Isosceles' outsourced finance and accounting services is [ICE](#) the web-based [Isosceles Collaboration Engine](#). [ICE](#) provides a secure centralised repository for all client data, documents and information, which can be entered and accessed by our own distributed workforce as well as our clients, whether they are at home or in the office, in London, Paris or New York - it makes no difference. Any time, any place, anywhere.

"As an e-learning business we use the internet at the core of our service. The beauty of the Isosceles service is that they really understand how to leverage the benefits of the internet for remote working and for working efficiencies. This enables LINE to concentrate on what it does best and leave the accounting to the specialists, across all our offices in London, Sheffield and Zurich."
CEO, Line Communications

The final winner will be announced on 12th November.

If you would like to discuss how we can help your business then simply get in touch either by phone +44 (0)870 770 9084 or click on this link to drop me an email, Mike O'Connell, CEO moconnell@isoscelesfinance.co.uk. I really look forward to hearing from you.

Isosceles Finance Ltd., P.O. Box 502, Staines, Middlesex, TW18 9AG.
