

<b>Role</b>	Financial Controller
<b>Location</b>	Cambridge – Home/Client based
<b>Salary</b>	Competitive

## Background

Isosceles is a business accounting consultancy providing bespoke strategic and operational accountancy and finance expertise to UK and international companies. We work closely with our clients, including fast growing technology companies, to help them succeed.

## Role Purpose and Key Responsibilities

The Financial Controller's core role is to take overall responsibility for the day to day running of the finance function for clients and to be the principal client contact on any financial issue. The successful candidate will spend time on site at client premises, both in Cambridge and across a wider geographical area, and will be able to work from a home-based office.

### Client account management

- Manage client relationship, including time on site.
- Proactive problem identification and solutions delivery.
- Maintain and improve customer satisfaction levels.
- Keep client informed of issues and risks affecting their account.
- Help define service levels and monitor performance against these.
- Provide sound pragmatic, commercial and professional business advice and support.
- Understand the commercial side of accounting – understand key business drivers and risks as well as client priorities.
- Evaluate commercial impact of activities.
- Identify and discuss with the client any opportunities for other Isosceles services
- Maintain good relationships with clients' external parties (e.g. customers, suppliers, banks, auditors, legal advisers)

### Management of team

- The Financial Controller is responsible for managing delivery from a virtual team to ensure a high quality, timely and accurate service.
- Manage and input to the development of the team, inputting to performance reviews, objectives setting and managing development as required.
- Help team members to balance multiple client requirements.

### Reporting

- Ensure management packs reflect commercial insights, are accurate and professionally presented with appropriate narrative and KPIs.
- Review other client deliverables ensuring accurate and timely (e.g. VAT returns, payroll and payment runs).
- Ensure appropriate financial controls are operating effectively on all clients.
- Manage the budget process for clients.
- Prepare informative forecasts (P&L and cash-flow).

# Isosceles

## Year-end.

- Manage the production of the statutory accounts for clients.
- Manage the audit process for clients and deal with any issues arising.
- Manage the process for tax compliance and advice, liaising with tax advisers as necessary.

## Other responsibilities could include:

- System implementation
- Supporting Corporate Finance projects such as due diligence, acquisitions and exit.

## About you:

- Fully qualified ICAEW, CIMA or ACCA.
- Experience as a Financial Controller preferred.
- Experience in preparing statutory accounts.
- Practice or technology industry background is an advantage.
- You will be a confident and outgoing personality with excellent communication skills and a naturally collaborative style.
- Confident with various finance systems.
- Highly numerate and analytical.
- Able to travel to client sites as required.
