

Role	Graduate Trainee Accountant
Location	Sheffield
Salary	Competitive salary

At Isosceles, we want to hear from graduates who have completed their studies and who are looking to train to become a professional CIMA accountant.

About us

Isosceles are not auditors. For many of our clients we are their full Finance team, providing bespoke outsourced accounting, advisory, control and strategic financial support. We also work with clients on merger, acquisition and expanding an international presence, on funding growth and achieving a high value sale. Our clients are successful, growing businesses, many operating within the thriving technology sector.

You can find out more about what it's like to be one of the Isosceles team on our website.

About you

As an aspiring accountant, you'll have strong organisation and numeracy skills, with a natural focus on accuracy and detail. You'll have the determination needed to successfully study for a challenging qualification while working in a busy role, with the longer-term ambition to be a Finance Director.

You'll have to quickly establish yourself as an integral part of both the Isosceles and your clients' teams, so you'll thrive working in a collaborative environment. To help you develop relationships at all levels, you'll be proactive by nature and your communication skills will be excellent.

About the role

Working with a team of professionals at various levels in their accounting career, you'll learn the full range of basic accounting skills such as management of ledgers; fixed asset registers; bank reconciliations; VAT; financial reporting across P&L and get involved in audit. You'll have exposure to and be responsible for client work from the very beginning, so you'll quickly build your own portfolio of clients and or/ areas of technical expertise.

What you need

- 2:1 degree or higher. Any discipline will be considered, although ideally, you'll have studied a numeracy-based subject.
- Some work experience, ideally within an office environment.
- 3 A Levels (or equivalent), with at least two at grades A*-B.
- Strong GCSE grades, including Maths and English.
- Strong IT skills and a confident user of Microsoft Office Suite, including MS Excel.
- The right to work in the UK without restrictions.

Interested?

Then have a look around our graduate pages and apply with your CV and cover letter, telling us why you want to spend another three years studying and what you think you can bring to Isosceles.

Assessment methods

Due to the coronavirus pandemic, we will be using remote assessment methods as far as possible. We are likely to ask successful applicants to work from home in the short term.

Best of Luck!
